I am very pleased to invite you to the 2nd Asian Congress on Schizophrenia Research which will be held from 11-12 (Friday-Saturday) February, 2011 in Seoul, Korea.

Schizophrenia has been one of the most important leading topics in psychiatry research worldwide. With a rapid increase of socioeconomic power of Asia, psychiatry research in Asia including schizophrenia has made remarkable progress lately. This is the best time for communication and cooperation within Asian researchers. The Asian Workshop on Schizophrenia Research was organized in 2009 to establish network of investigators and facilitate schizophrenia researches in Asia. The 1st Workshop was successfully held on February 2009 in Osaka, Japan, which was hosted by Prof. Take-da, Osaka University. The founding members agreed to have workshop biennially.

Following the 1st workshop, the latest developments and important issues related to schizophrenia research in Asia will be covered in the 2nd Congress in 2011. Attendees will share and discuss current interests especially focusing on the Asian regional situation. The future of this Congress will be elaborated in detail.

Seoul is the capital of South Korea and one of the most famous metropolitan cities, where historical tradition and modern culture coexist. You may enjoy interesting experiences in a unique dynamic city, Seoul. I am looking forward to welcoming you to Seoul in 2011.

Scientific Program

February 11 (Fri)

Symposium 1: Early Psychosis
Reach Out to Early Psychosis: Psychosocial Intervention and Brain Mapping of Transition to Psychosis
Chairpersons: Masafumi Mizuno (Toho University, Japan), Young Moon Lee (Ajou University, Korea)

10:30-12:10 Hall A

S1-1 Naohisa Tsujino / Toho University, Japan
Recognition and Decisions Regarding the Treatment of Early Psychosis by Japanese Psychiatrists

S1-2 Christy Hui / The University of Hong Kong, Hong Kong
Preliminary Data on a 5-Year Randomized Controlled Study of a Specialized Early Intervention Service (JCEP) in Hong Kong

S1-3 Geumsook Shim / Seoul National University, Korea
Altered Resting-State Connectivity in Subjects at Ultra-High Risk for Psychosis: An fMRI Study

S1-4 Jee In Kang / Ilsan Hospital, National Health Insurance Corporation, Korea
Abnormalities of GABA-A Binding Potential in People at Ultra-High Risk for Psychosis; An [18F]-Fluoroflumazenil PET Finding

Symposium 2: Phenomenology & Classification
Phenomenology of Schizophrenia
Chairpersons: Jung-Seo Yi (Hallym University, Korea), Kyooseob Ha (Seoul National University, Korea)

10:30-12:10 Hall B

S2-1 Anu Kant Mital / Rajiv Ghandhi Medical College, India
Phenomenology-A Need for Paradigm Shift in Schizophrenias

S2-2 Manit Srisurapanont / Chiang Mai University, Thailand
Comparisons of Methamphetamine Psychotic and Schizophrenic Symptoms: A Differential Item Functioning Analysis

S2-3 Pichet Udomratn / Prince of Songkla University, Thailand
Acute and Transient Psychotic Disorders in Asia

S2-4 Yeon Ho Joo / University of Ulsan, Korea
Clinical Features of Remitted Schizophrenia and Its Implication into Nosology of Schizophrenia
# Symposium 3: Genetics 1

**Approaches to Identifying Genetic Contributions to Schizophrenia**

**Chairpersons:** Yu-Sang Lee (Yong-In Mental Hospital, Korea), Eun-Jeong Joo (Eulji University, Korea)
